Our goals

- ▼ Improve the internal market;
- ▼ Taken on sustainability & competitiveness challenges;
- ▼ Support the EU Institutions in the development of reliable legislative & financial frameworks.

Sustainability

- ▼ Promote single methodology assessment for construction products & works;
- ▼ Support voluntary declaration of environmental information of products;
- ▼ Encourage convergence of existing & alternative assessment methodologies.

ECO Platform

- ▼ EPD according to EN 15804;
- ▼ Common EPD format allowing comparison;
- ▼ Mutual recognition of EPD across Europe;
- ▼ Verification procedures.

Efficient Europe

- ▼ Transparency;
- ▼ Policy consistency;
- ▼ Minimise stakeholders burden;
- ▼ Improve performance with holistic approach.

Conclusions

We support the establishment of a transparent, single European platform because:

- ▶ We want to deliver **trustworthy** EPDs;
- ▶ We need **affordable**, enduring generic EPDs;
- ▶ We promote a **single** recognised **methodology**.
