

No.	Subject	Objective	Work description	Status	responsible	involved	Budget	deadline
1	Common core ECO EPD							
1.1		Define and develop common core ECO EPD	Define Core ECO EPD	open	TeWoG			
1.2			Develop proposals for solutions to implementing this common core EPD across ECO EPD Programme Operators (subsequent to 1.1)	open	TeWoG with POs			
2	Common EPD quality management, verification principles and processes				Audit Group			
2.1		Establish rules for verification of EPD and LCA generation tools and integrate into guideline for audit and verification of the ECO Platform (including model EPD)	Develop solutions	open	TeWoG			
2.2		Enabling participating Programme Operators to audit each other and therefore self-regulate the quality management and verification of EPDs to ECO Platform agreed standards	(covered by audit requirements) adjust audit procedures	continuously				
			Implement Audit Tool	ongoing	QM	HH, CD		Q2, 2019
3	Enabling the availability of information on existing PCR documents and PCR under development from product TCs, Programme Operators and other stakeholders							
3.1		Creating a PCR Registry on the ECO Platform website with links to the PCR owner where further details and full text are available (with ISO/TS 14027 as a guide).	Define requirements for PCRs and for PCR registry and implementation	ongoing	BoD	SOR, CD		Q3, 2019
4	Supporting the provision of environmental data from EPDs in suitable common formats and contexts for different uses and applications							
4.1		Working towards a solution for common -digital EPD format -(rules for / organization of) data exchange (under consideration of ISO activities and software and database developments)	Monitoring the developments within InData Group and ISO/TC59/SC17/WG3	open	all			
4.2			Provide input towards InData Group		TeWoG			

No.	Subject	Objective	Work description	Status	responsible	involved	Budget	deadline
4.3			Set-up cooperation with InData Group		BoD			
4.4			Provide input from developments on the application-side of EPD data (tools, databases etc.)		BoD			
5	Communicating and liaising with all stakeholders, including the EC, in order to monitor and contribute to matters relating to the measurement of environmental impacts of construction products							
5.1		Keeping in contact with the EC about issues of communication of environmental performance of construction products	Monitoring of relevant activities	continuously	all			
5.1a		CPR, BWR7, DoP/CE-marking	ECO Platform does continuous monitoring	continuously	all			
			Assessment and information sharing of consequences (risks and chances) for ECO Platform members, esp. EPD POs Take decisions on appropriate reaction		BoD			
			Coordinate overall Public Affairs approach.		BoD			
			Support members with information to trigger / prepare them for action on national level (e.g. approach delegates of standing committee etc.).  Workshop on the matter with experts eventually for a Working Group for further action		BoD			
5.1b		PEF	continous monitoring of PEF development	continuously	all			
5.2		Increase visibility of added-value and improve management of dialogue with EPD-applications	Communicating with all relevant stakeholders on the use of ECO EPDs	continuously	BoD			
5.2a			Communicate added-value / use of EPD data	continuously	BoD			

No.	Subject	Objective	Work description	Status	responsible	involved	Budget	deadline
5.2b			Support development of requirements...	continuously	BoD			
5.2c			Management of the dialogue	continuously	BoD			
5.3		Liaise with CEN TC 350	Implement CEN Liaison Partner	continuously	FW
